

B.H. 5th of Iyar 5773 15/04/13

Crow Electronic Engineering Ltd.
12 Kineret St.
Airport City, 70100, Israel

Kosher Certification

We hereby certify that we tested the
Crow's alarm system Serenity
and the accompanying wireless sensors
and found that the systems can be used
on Shabbat and Jewish Holidays L'Mehadrin

with Accordance to the following explanation
and operating conditions

Wishing you peaceful and safe Shabbat

Rabbi Yisrael Rozen Eng.

Dean of the Zomet Institute

- A. This alarm system includes wireless motion detectors and magnetic door sensors.
- B. In the Shabbat mode all motion and magnetic sensors are disabled and do not transmit any detection or event (unless tampered with).
- C. You can program the alarm system (before Shabbat) to be activated during pre-planned hours on Shabbat.
- D. To set the system in Shabbat mode it's required to set the Time Zone settings including a code and the pre-planned hours the alarm will be activated.
- E. Entering the Time Zone code will put the system into Shabbat mode and an indicator (a circle-like *kipa*) will appear on the screen
- F. If you enter the code again the system will exit the Shabbat mode.
